We, the undersigned - resident property owners and others, living in the neighborhood of the property in question, would respectfully remonstrate against your Honorable Body issuing any order, by which, the dwelling now occupied by Mrs Margaret Belau situated on the southwest corner of Green and North street may be removed. We do not think any necessity exists for the disturbance of said dwelling, as it in no wise interferes with the travel of teams or foot passengers. The occupant of said dwelling is a poor widow, with but little means of subsistence and the said dwelling we consider necessary for her protection. She has always done her share toward keeping the road in its vicinity in good repair, and we consider her in every way worthy of the kindness and consideration of your Honorable Body.

Beginning at south east corner of Blairs lot and running due north 6 ft. The Cooper's shop is found to extend 8 $\frac{1}{2}$  ft. beyond the 16 $\frac{1}{2}$  ft. from the point made by the measurement of 16 $\frac{1}{2}$  ft. 10 ft is measured off as alley. From this point due north to Fitzpatrick's there is four feet in the alley which ought to be within his fence from the point made by the 10 feet alley. Measuring, due north again 8 $\frac{1}{2}$  ft. we find that the line fence of Fitzpatrick is at a point five and half feet beyond. Or in other words lies about the middle point of the 10 feet belonging to the Railroad. From the point made by the 8 $\frac{1}{2}$  ft. 10 is measured off for the Rail R. plat, from this point 50 is measured off due north for the North street. From the north limit of the street measuring due south, it is 2 $\frac{1}{2}$  feet. to Mrs Belands lot fence. Her house & lot due south embraces about 26 ft. of the road leaving 2 ft. intervening between her house and the 10 ft. of the Rail road. From Green Street measuring west to Mrs Belands house it is 2 $\frac{1}{2}$  feet. From the alley west of Fitzpatrick's measuring east to Allens stable it is 46 $\frac{1}{2}$  ft. Between these points lie the stable & house of Mrs Beland, wholly upon the north street, a margin of from one to three feet lying between them and the line of the 10 ft. of rail road.

To the Mayor and Common Council of the City of Crawfordville:—Gentlemen.

In accordance with your instructions I left here on the 5th inst. and arrived in Jeffersonville on the next morning, called on Mr. McGuire and was shown the engine which had been offered by him for sale.

The engine is called the "Safayette". She is a large end brake Agnew machine—engineing 40 horse power her brakes. She was used three years by the City of Louisville and was then sold to the Government and used at the warehouses six years—cost originally from \$ 25000.00 to \$ 3000.00 is in condition to be worked, but will need repairs to put her in perfect repair about as follows:—New paint. New suction which will cost \$ 216.00 Repair to the hind spring, trifling cost. Repair to soap oil—little cost say a dollar or so. Two pipes and nozzles say \$ 20.00

The hose is of but little value—would require one wheel to be filled with spouts and would need new paint.

The hose is not good—is made of leather and looks somewhat about the right and although it might be used for a long time—would not be reliable at any time.

At the suggestion of a majority of the Council I do not think it will

and received the following proposition.

"The City of Penn Yannta Ind. proposes to sell to the City of Crawfordville Ind either one of No. 1 or No 2 Hand Engines at the following price for Cash
